

ALL-TAG

RFID For Retail Security Has Arrived

All-Tag's 2-in-1™ Labels combine EAS and RFID technologies to provide security against theft, as well as product information storage and product tracing.

With EAS and RFID antennas embedded in a single tag, users can:

- Reduce shrink, manage inventory, and track products with 1 tag
- Decrease merchandise tagging labor time
- Decrease merchandise tagging costs
- Avoid confusion from multiple types of tags

2-in-1 Labels can be used in the following formats for application with virtually any type of merchandise:

- Adhesive Labels
- Embedded inside price tags
- Hang Tags
- Hard Tags

Specifications:

Size: 57x57 mm (1.81 X 1.81 inches)

EAS Antenna Frequency: 8.2 MHz

RFID Antenna Frequency: UHF 860 – 960 MHz
