

ALL-TAG

ALL-TAG's

Complete Line of RF Labels

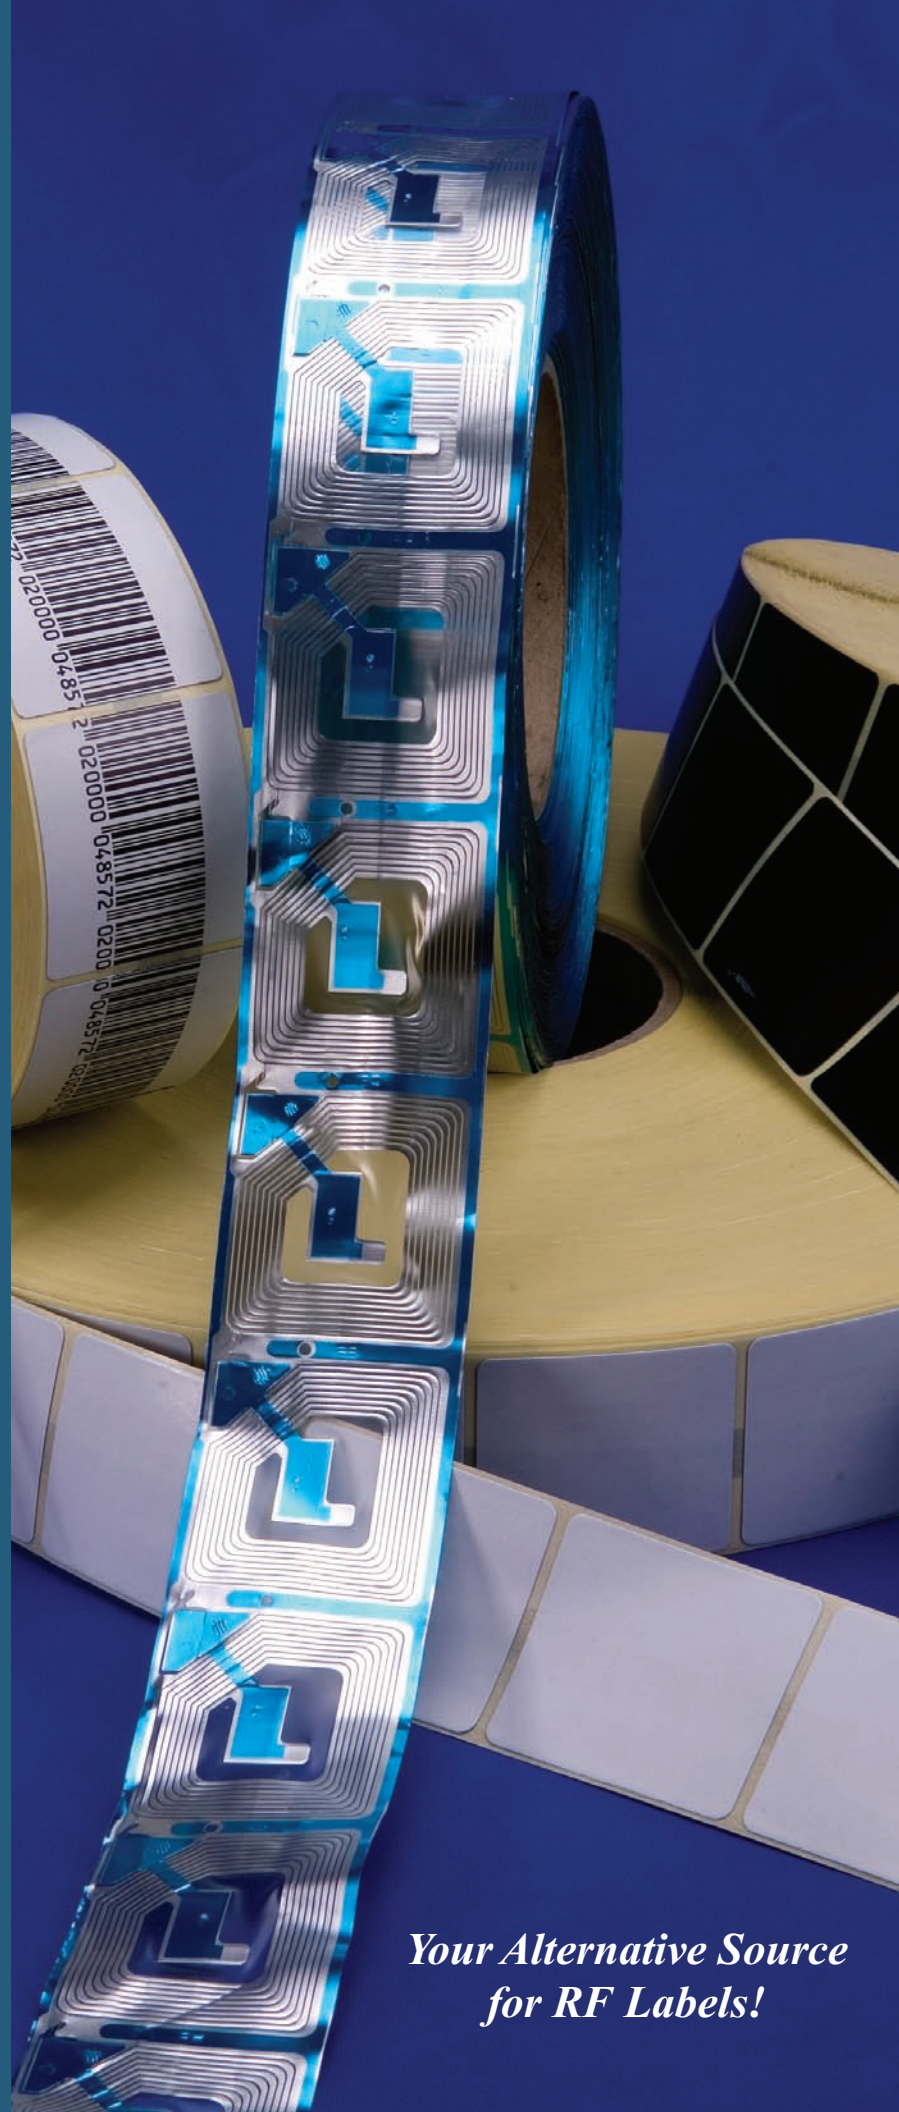

ALL-TAG offers a complete line of high-quality, RF labels that are fully compatible with all RF EAS systems and deactivators manufactured by Checkpoint, Telsec, NEDAP, Gateway, Ketec, and many others.

ALL-TAG RF labels are being used by many of the largest retailers in the world today, as well as by their source tagging vendors. Label integrators and retail product manufacturers utilize ALL-TAG labels in their High-speed label application programs for packaging and apparel ticketing. Our labels can protect virtually any type of merchandise found in department stores, supermarkets, drug stores, mass merchants, and sporting goods stores.

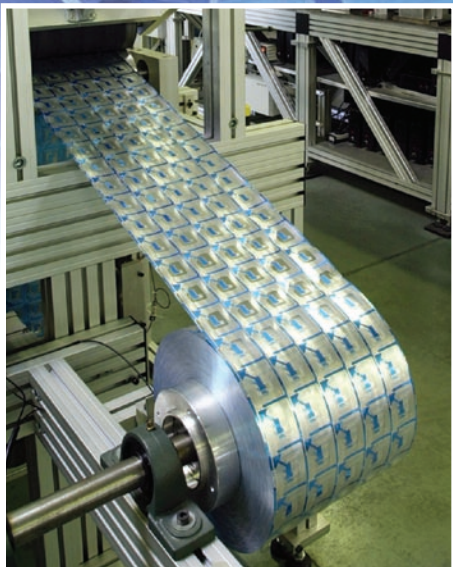

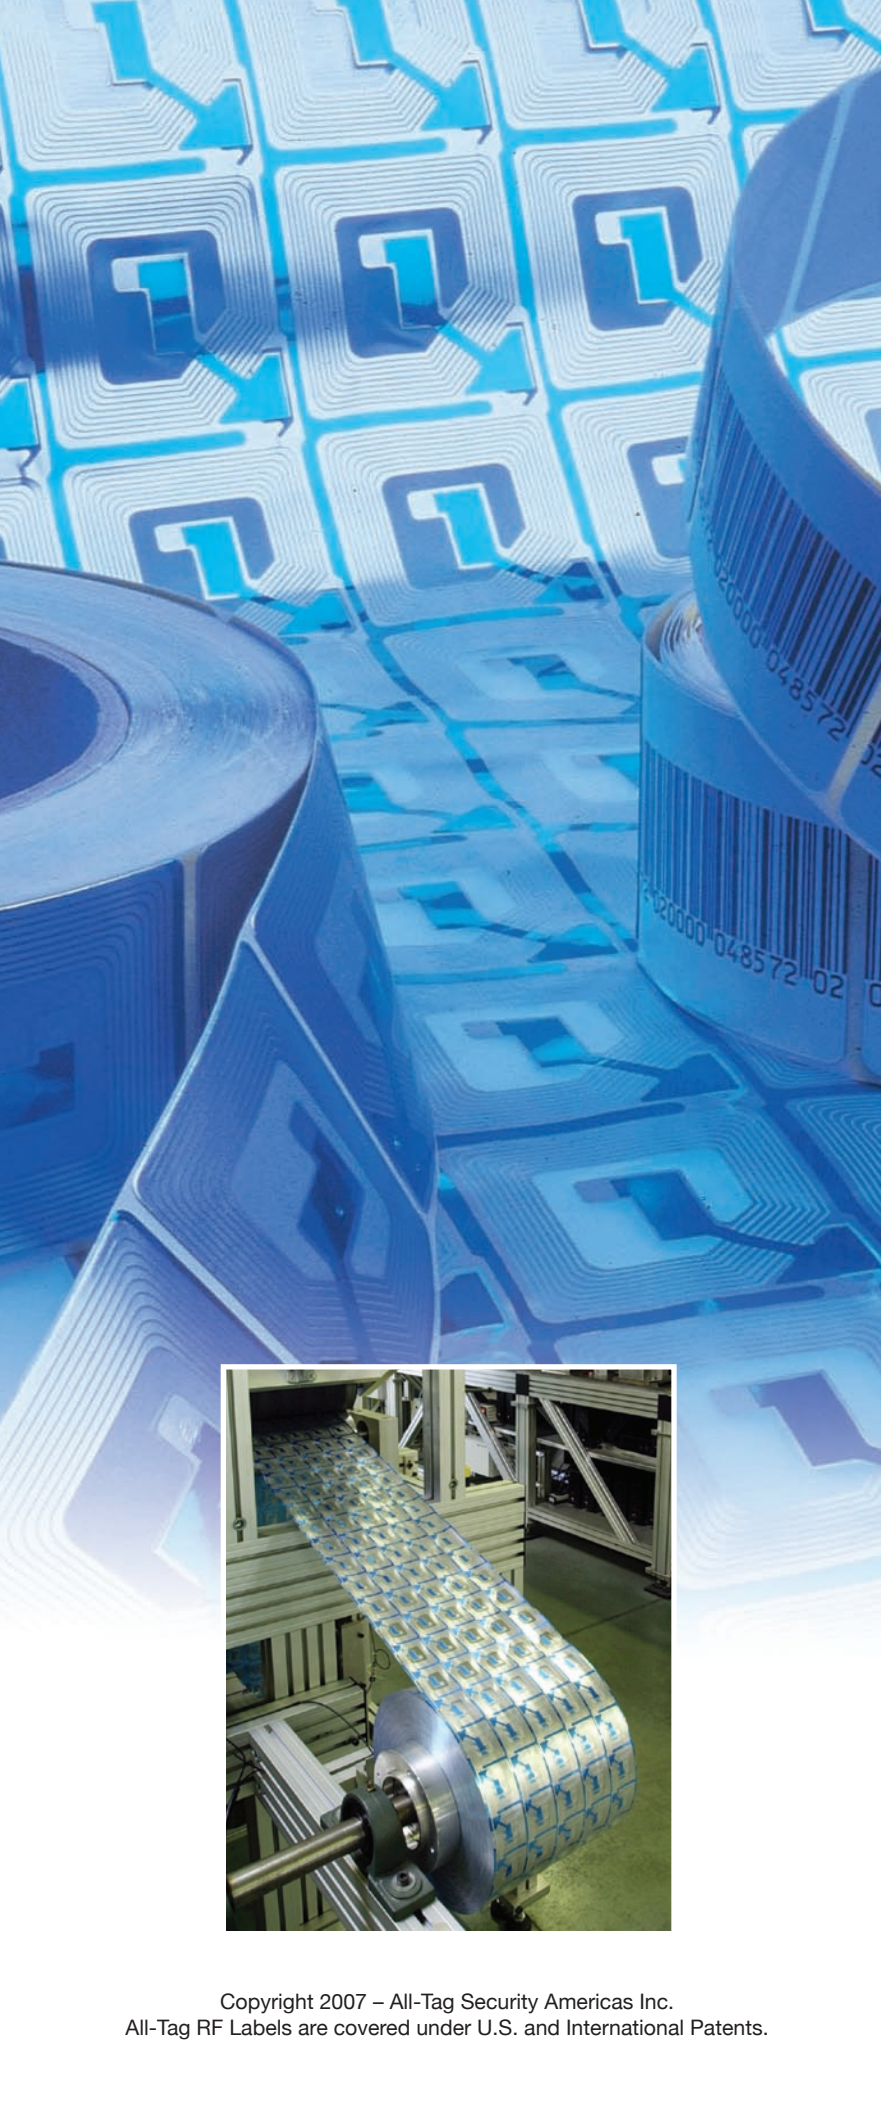

ALL-TAG RF labels provide the highest level of performance with an excellent detection rate and deactivation range. Our products have been independently tested by many test labs and retailers with results that meet and or exceed the requirements of all RF users.

SuperLabels™ - A Revolutionary Innovation in RF Label Technology

Typically, smaller RF labels are ineffective due to their limited detection and deactivation capabilities. All-Tag has addressed this problem by developing and patenting a new line of SuperLabels, which are the first innovation in RF technology in decades. Although smaller in size, the SuperLabels offer detection capabilities equal to and even greater than the standard industry 1.5 x 1.5 inch (40 x 40 mm) RF labels. Now retailers can enjoy the benefits associated with smaller labels without putting their merchandise at risk.

RF Label Variety

All of our labels are available in a variety of formats; deactivatable, non-deactivatable, barcode, plain white, black, custom color, permanent adhesive, removable adhesive, thermal, and custom printed. We also offer custom roll lengths to better service your unique labeling applications.

About All-Tag

ALL-TAG Security S.A corporate head-quarters and manufacturing facility is located in Manage, Belgium. We have been producing and selling labels worldwide since 1992. In 2000 ALL-TAG opened their North and South American sales and distribution facility in Boca Raton, Florida. In 2007, All-Tag opened their Asian sales and distribution facility in Hong Kong.

Why All-Tag?

We are focused on only one business: designing, manufacturing, and distributing the highest quality RF labels in the world. Our customer service is second to none. Our ability to provide custom orders with short turnaround time is unmatched. Our pricing and product warranty is fair and straightforward.

Please contact us for more information on ALL-TAG RF Labels.
